Dear Justin,

Re: CE MARKING / EN 14351-1:2006  
MANDATORY STANDARD CLAUSE DECLARATION

From the 1<sup>st</sup> July 2013, it becomes a mandatory requirement that external pedestrian door sets & windows, without resistance to fire and/or smoke leakage characteristics, must be CE marked.

The window and door standard, to enable door sets to be CE marked, is EN 14351-1:2006 and as part of this standard, hardware suppliers need to declare certain mandatory performance criteria.

**Clause 4.6 Dangerous Substances**

Yale DWS confirm that, in accordance with the requirements of EN 14351-1:2006, the hardware currently supplied to **B&P Windows Ltd**, does not cause any detrimental emissions or migration, during the normal intended use, which are potentially dangerous to hygiene, health or the environment.

**Clause 4.8 Load Bearing Capacity of Safety Devices**

Yale DWS does not currently supply load bearing safety devices to **B&P Windows Ltd**. Should these items be supplied, or required in the future, any necessary documentation can be provided.

Yours sincerely,

**Paul Jelley**  
**Technical Manager**
